Full Title, Past, Present and Future: Clearing your past, for living in the present, and manifesting your future dreams and goals.

ISBN 978-0-646-49796-9

Publisher, Gregory Institute for Transactional Analysis

Format, paperback

Size A 5, 209 pages

Annotation:

Everyone has a past, everyone has a present, the future isn't written yet. The question is, do we allow our past to sabotage our future?

Many people today know they have the ability to manifest goals and dreams in their lives, and yet for many, even though they put the techniques into practices, it does not work so well. Why?

We all carry around old home movies in our heads, some embarrassing, some treasured. We tend to hang onto them. Old negative beliefs about ourselves, others, life can unconsciously block our success in manifesting our dreams and goals. This book is about clearing the past in order to live in the present, and outlines clear steps to manifest future dreams and goals. Reaching your full potential, and becoming open to your spiritual self can be the result.

By clearing our past and learning to use consciousness positively, and applying the law of attraction we can manifest the positive and happy life we want. The key is changing early outdated decisions and then learning how to manifest our positive intentions.
