

Psychopathology

This training weekend offers a foundation in different perspectives on psychopathology, and different formulations about mental illness and disorders, and personality disorders. Depending on the needs of the participants, the weekend will encompass presentations about, reflections on, and discussion of:

- Mental health and mental illness – including social and cultural perspectives
- Models of madness
- The medical model: Diagnosis, treatment, and cure
- The *Diagnostic and Statistical Manual of Mental Disorders (DSM-IV)* – An introduction
- TA models of personality and psychopathology
- Psychopathology as alienation
- Relational possibilities: *DSM-V*.

Keith Tudor MA, MSc, CQSW, Dip. Psychotherapy, CTA(P) & TSTA(P)
(EATA)

Keith is a qualified social worker, is registered with the United Kingdom Council for Psychotherapy, and has worked for over thirty years in the helping professions in a number of settings. He is a Senior Lecturer and Programme Leader in the Department of Psychotherapy, Auckland University of Technology, and has a small private practice in West Auckland. He is the author/editor of ten books and over 100 professional papers, is the series editor of *Advancing Theory in Therapy* (published by Routledge), and sits on the editorial boards of three international journals. He is a founding member of the International Association for Relational Transactional Analysis (www.relationalta.com). He has written several papers about mental health, mental illness, and personality, and is currently working on a paper: ‘Whence and whither personality?’
